

How do you think the screen on the robot reacted?

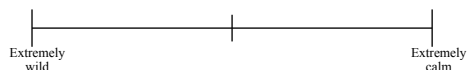

How did you experience the robot?

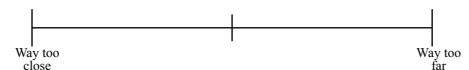

How was it to use the robot?

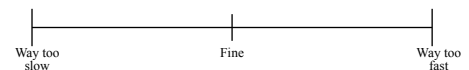

How did you experience the robot's movements?

I think that the robot stopped...

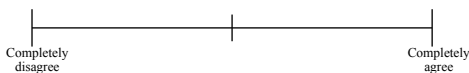

I think that the robot's speed is...

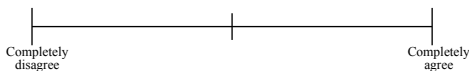

I think that the robot's height is...

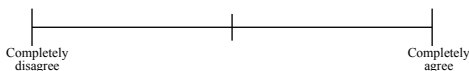

I feel that the robot can help me

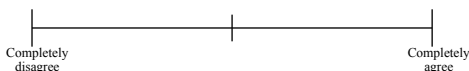

I think that the robot was obstructing me

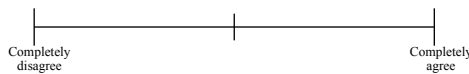

I feel safe around the robot

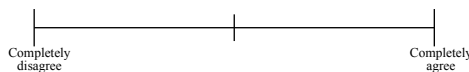

The robot startled me

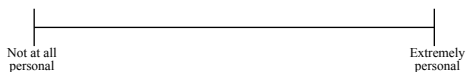

I like to be served by the robot

I counted on the robot to lead me to the location I chose

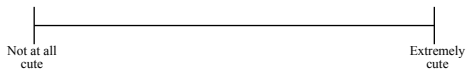

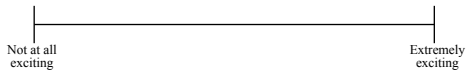

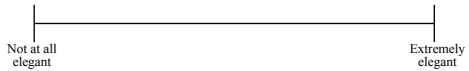

How personal did you experience the robot's help?

How surprised were you by the robot's approach?

What do you think about the robot?

What else do you think about the robot?
